CEREAL PLANT WILL ROBBER CAUGHT SOON COST \$140,000 AND AFTER REPORT IS BE FOUR STORIES MADE TO POLICE

President M. S. Browning, of the Utah Cereal Food company, states that the building of the cereal food plant on Pacific avenue, between Twenty-eighth and Twenty-ninth streets, is assured and that building operations will proceed as rapidly as weather conditions will permit. Mr. Browning states that contracts for the construction of sixteen grain elevators at the rear of the building have been let to Chicago people and that the J. P. O'Neill Construction company of this city has the contract for the building of the concrete base walls. The building will be four stories high and the plant will cost in the neighborhood of \$140,000. It is planned to complete the structure before spring.

The O'Neill company will begin work tomorrow and the manager says that the foundation walls will be completed in thirty days. The base walls will be made of reinforced concrete, and will be 18 by 51 feet wide, with frontage on Pacific avenue. The walls will be from 7 to 8 feet wide at the base and 2 feet at the top. They will extend 2 feet below the ground floor and 9 feet above, forming a half basement.

The survey of the site has been completed and the railroad companies have arranged for spur tracks. President Browning states that the contract for the structure above the base will be let as soon as the O'Neill company completes the concrete walls, and he is of the opinion that construction work can be continued during most of the winter months.

CARELESS ISSUE OF CHECKS CAUSES TROUBLE

David Hogge and Lawrence Thornley were given 180-day suspended sentences this morning, after pleading guilty to having each passed a bad check. The former passed a check for \$5 on J. S. Carver, on October 7, and the latter passed a check for the same amount on W. H. Wright & Sons company, August 25. Both had made good the amounts of the checks to the injured parties and the testimony in the case showed that the defendants had been careless in watching their bank accounts. Before passing sentence the judge strongly advised both parties to be more careful in the future.

John Kelly, a drunk, was given a five-day suspended sentence, and Thomas Healy was given a five-day sentence. Healy pleaded guilty yesterday to a charge of drunkenness and has case was then taken under advisement.

A Sander, whose case was also taken under advisement yesterday, was given a \$10 or ten-day sentence. He was convicted of the charge of vagrancy.

HINDU SHOTS AN INSPECTOR

Vancouver, B. C., Oct. 21—William C. Hopkinson, chief assistant to Malcolm Reid in the Dominion Immigration service in Vancouver, was shot and killed today in Vancouver court-house by a Hindu, Mewa Singh. The assassin was arrested by the police. Hopkinson was standing in the main corridor near the witness room when a party of nine Hindus passed by. Hopkinson was accosted by Mewa Singh who fired at him. Hopkinson tried to grapple with Mewa at the first shot, but a second bullet brought him to his knees. Hopkinson collapsed to the floor and three other shots were fired into his body. Apparently the second shot went through Hopkinson's heart.

Thomas Nee was the victim of a bold daylight assault and robbery yesterday, the alleged robber being John Duffy, who is now in the city jail awaiting the filing of a charge against him.

According to the police, Nee came to the station yesterday afternoon with his face and hands covered with blood and one leg of his trousers almost torn off. He stated that he had been in Ogden several weeks and yesterday came up town to buy himself some clothing. He met a stranger on lower Twenty-fifth street and the two had several drinks together in different saloons. Finally his new found friend asked him to walk into an alley behind one of the saloons to have a drink out of a bottle. He accepted the invitation and the stranger taking him unawares gave him a bad beating and robbed him of \$29. Most of the money was in currency and Nee's trouser leg was torn, when his assailant took the money out of his pocket.

The victim of the assault gave the police a good description of his assailant, among other things saying that he had been employed as a circus hand and was known as "the brass band," on account of his propensity to imitate a trombone tone. Detectives H. C. Peterson, Robert Burk and Charles Pincock took up the chase and the latter officer located Duffy on an Oregon Short Line chair car, just as the train was ready to leave the city. He was amusing the passengers with his imitations of a trombone when the arrest was made and when he was taken to the station he was immediately identified by Nee as the man who had committed the assault and robbery. When he was searched, some currency, believed to be that which was stolen, was found on him. Nee is being held at the station also, as a witness.

PROGRAM OF STUDENT BODY AT WEBER ACADEMY

The weekly student body and class meetings were held at the Weber academy this morning. The student body session was in charge of President Harvey J. Taylor, but preceding it, Nevin's "The Rosary" was played by Leroy J. Leishman, and the invocation was offered by Joseph Bal-lantyne.

The regular program was opened with the singing of "Dost Thou Know That Fair Land," from the opera "Mignon," by H. A. Dixon. The singer prefaced his rendition of the song with a brief review of the story of the opera, which added to the pleasure given by the number. The second selection was the reading of "A Sisterly Scheme," by Bertha Wheelwright. The story is a charming romance and the manner in which it was read resulted in an encore and the reader responded by giving "Encouragement," a humorous story in the negro dialect.

The closing number was Tolstai's "Good-bye," by Mr. Dixon. This number was also sung and enthusiastically received. Mr. Dixon's accompaniments were played by Miss Mary Jacobs.

BERLIN REPORTS HEAVY FIGHTING

Berlin, Oct. 21, via Amsterdam and London, 6:30 p. m.—An official announcement given out by the German military headquarters today says:

"Severe fighting continues on the Yser canal. The enemy's artillery was supported from the sea northwest of Nieuport.

"The fighting west of Lille continues. Our troops, taking the offensive, repulsed the enemy at several points.

"In the eastern theater of the war no decision yet has been reached."

LORD OF ADMIRALTY IN THE TRENCHES

London, Oct. 21, 6:40 p. m.—Winston Spencer Churchill, the first lord of the admiralty who accompanied the British naval brigade and marines to Antwerp, was, according to one of the latter, with them in the trenches practically all the time and just before the order was given to retire urged the men to hold out 24 hours longer when the big guns would arrive. One day he reconnoitered the position of the Germans in an aeroplane.

BUSINESS MEN TOO NERVOUS

Washington, Oct. 21.—Confidence is the only thing needed to restore business prosperity, President Wilson today told the directors of the Federal reserve banks whom he received at the White House. The president declared he thought business men were more nervous than was necessary.

"For my own part," said the president, "I believe that the best thing that can be done for the country is to open the banks at the earliest possible date; otherwise we should seem to doubt their efficacy. Otherwise we should seem to discredit in part the very thing that we are undertaking."

Confidence Is Needed. "For my feeling about the present situation is this: The only thing lacking is confidence. The circumstances of the world are extraordinary, but we ought not to allow our mental attitude to be extraordinary. We are more nervous than there is cause for, and if we go about business as if nothing were happening, business will take care of us, as we take care of it. That is my conviction. I will not use again the word 'psychology,' but there is a psychological element in this thing, which it would be very useful if we were to correct, and the way to correct it with others is to correct it in ourselves—to feel that there is nothing to wait for in putting business on the footing on which it is to remain. I hope for a great many years to come."

"But when I started out I did not expect to say these things. I merely expected to tell you how sincerely gratified I am to have the opportunity of meeting you and of telling you how I congratulate the country on being in the hands in the matter of banking of such a body of men."

BANKS ARE TO OPEN ON NOV. 30

Washington, Oct. 21.—Representatives of the twelve federal reserve banks in session today, voted 37 to 35 a recommendation that the federal reserve board authorize opening of the banks on November 30.

STEEL WIRE POOL IS REVIEWED

Philadelphia, Oct. 21.—Argument on behalf of the government in its dissolution suit against the United States Steel corporation and its subsidiaries, was continued today by Jacob M. Dickinson in the United States district court here.

Mr. Dickinson spoke for more than five hours yesterday. He reviewed the history of the steel wire pool of 1905 and then took up the matter of interlocking directorates. Mr. Dickinson said the steel corporation through its directors was in direct touch with the large railroads and steamship companies of the United States and with the "overwhelming majority in money and power of the banks and trust companies of the United States."

CAPTURE OF AN AUSTRIAN FORCE

Petrograd, via London, Oct. 21, 3:30 a. m.—Correspondence from Warsaw giving the details of the recent capture of an Austrian battalion in the region of Strzy, Galicia, relates how the Russians, bearing branches of trees heavy with foliage to screen their movements, advanced at nightfall. The Russians, feigning ignorance of their approach lessened the musketry fire, allowing the Austrians to draw near, but meanwhile bringing their machine guns and light artillery into position.

In the morning, so the story goes, the Russians opened an unexpected and deadly fire on the Austrians who, after a momentary hesitation, surrendered without resistance before a Russian bayonet charge. Among the prisoners taken were fifteen officers. Six machine guns were captured.

A correspondent on the East Prussian front says that activity has been resumed along the entire line from Suwalki to Lyck, where the Germans have been reinforced. German assaults were repulsed and sharp Russian counter attacks made. The Germans are engaged in skirmishing and foraging and appear to have no intention of advancing in force.
